Professional Summary

Results-driven Java Developer with hands-on experience in backend and full-stack application development. Adept at building scalable RESTful APIs, integrating cloud and AI solutions, and deploying secure enterprise platforms with Spring Boot, AWS, and modern web technologies. Strong collaborator, quick learner, and passionate about applying AI and data-driven techniques to solve real-world problems.

Technical Skills

JAVA, SQL, Spring Boot, Hibernate, Jenkins, React, Docker, Data Structures and Algorithms, Database Management, Microservice Architecture, RESTful APIs, OOP, CRUD, CI/CD
AI Fundamentals and Practical Application.

Experience

Tata Consultancy Service (TCS)

oct2024–sep202

Java Developer

Java, Spring Boot, Microservices, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed and optimized backend services for enterprise applications using Java & Spring Boot.
- Designed REST APIs; integrated JWT-based authentication for secure user management.
- Enhanced data workflows; improved response times and user experience.
- Collaborated with teams on feature development, code reviews, and performance tuning.

Chetu Skill Center

July2024 – Sep2024

Software Engineering Intern

Java, Spring Boot, MySQL, HTML, CSS, JavaScript, Bootstrap

- Completed full-stack training in Spring Boot, MySQL, and React.
- Developed, deployed, and tested modern web applications in a team environment.
- Demonstrated end-to-end project delivery and database management skills.

Projects

- Developed a comprehensive full-stack platform for car buying, selling, and renting, incorporating responsive design with React and Bootstrap for enhanced user experience across devices.
- Engineered robust RESTful APIs using Java and Spring Boot, implementing secure JWT authentication and authorization.
- Designed and implemented dynamic React UI components, including features such as multi-image upload with preview and sophisticated search filters.
- Optimized data synchronization between frontend and backend to reduce latency and improve responsiveness.
- Integrated Stripe Payment Gateway for secure, PCI-compliant online transactions.
- Demonstrated a strong practical understanding of AI technologies by integrating AI-driven features like recommendation engines and intelligent search filters to enhance personalization and decision-making.
- Ensured application reliability and quality by implementing comprehensive unit and integration testing using JUnit and React Testing Library.
- Collaborated closely with cross-functional teams using Agile methodologies to iteratively improve features based on user feedback and performance metrics.

Certifications

- NPTEL Certification – Cloud Computing
- NPTEL Certification – Data Mining
- NPTEL Certification – Internet of Things

Education

Biju Patnaik University of Technology

Master of Computer Application (MCA)
8.5 CGPA

June 2022 – June 2024
